Dear Detur Clawn

Ciaaooooo! we are all together writing this letter. It tell you everybody is holding this pen writing so that you may feel our feelings for you. We are very glad and happy for your teachings towards us. It is really benefiting us and without you we could never be entertaining many people.

We are very x(times) 1,000,000 happy - we say "Grazie". When we were here we started having fun slowly but this last Saturday was the day. The big day which we did our best. It was on 27th 08 2011. We our FuFu Clawn Club we cheered everybody. We sit here telling you that we are very happy. Happy until tears came out of their eyes.

Now we have another invitation for a show in a big place at the D-C's office. FATHER-Francis promised to send you our video. Now we are not still perfect. We do not have the magic things for the magic man. The play on Saturday was not having the magic gag, which is very important.

Another important thing is the music. Every gag was having it's music and we forgot to ask you for the music. You did not leave for us the music's. We ask you to send them tomorrow or today to father. We just sang, listen carefully in your hearts. Baaa! Aliamachiii! labady! Labady! Anyway it was fun. Father is very happy and we are very happy for our support his support your support. We are waiting for our promise we love you all. Send for us circus and clawn gag videos and music's. Ciao!
